Tiffany's Tips for a Fresh Spring Look:

- Bright and Bold Lips: In for Spring is a pop of Coral on the lips. Also, you can never go wrong with a beautiful shade of red or pink.
- Bright Eyes for the Day: Sweeping colors like pale turquoise, bright pink or yellow gold over the lid will give you the perfect pop of color!
- Smokey Eye for the Evenings: This look is not going away anytime soon and for a good reason. When in doubt, for an evening out, resort to a smoldering eye and a neutral lip.
- Punch of Fuchsia: A beautiful blush with a hit of fuchsia is very in for this season.
